

3rd Virtual Mini-Symposium on Male Reproductive Immunology

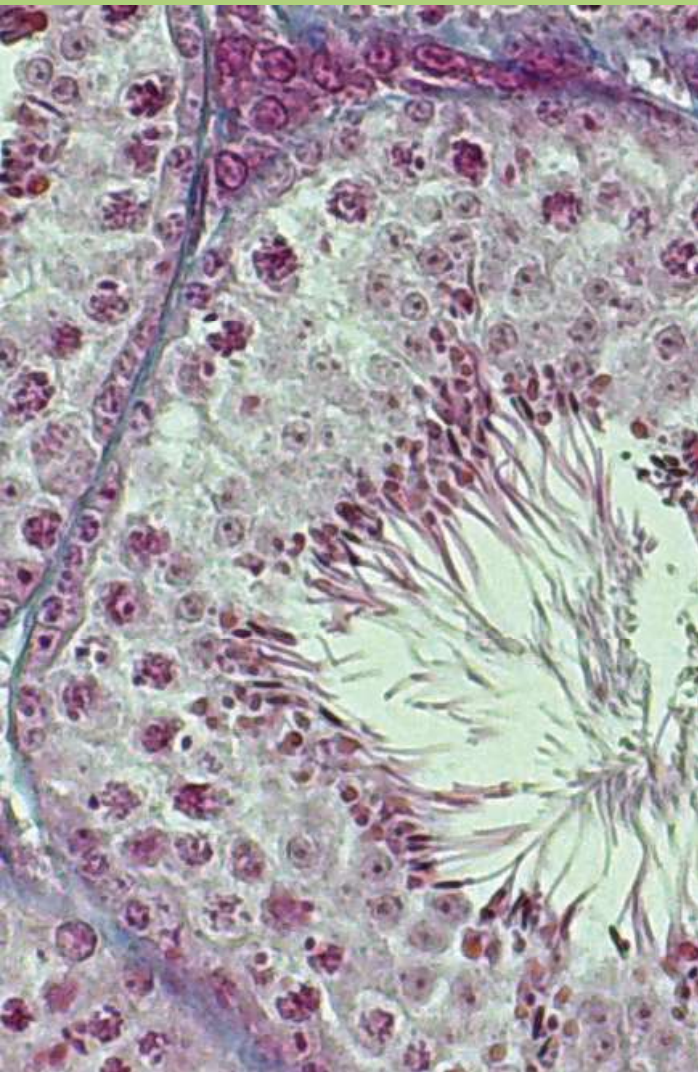

Image: Monika Fijak

„At the Interface of Tolerance and Defense“

Invited Speakers

Kenneth Tung

USA

Margaret Petroff

USA

Ellen Goossens

Belgium

Jannette Dufour

USA

Jens Rosellen

Germany

Emily Bryan

Australia

Magdalena Huber

Germany

Brett Nixon

Australia

Rukmali Wijayarathna

Australia

3rd Virtual Mini-Symposium on Male Reproductive Immunology

„At the Interface of Tolerance and Defense”

Wednesday November 29th 4:00 – 6:30pm CET

Welcome address by the Organizers

- 1) *Why are sperm to immunogenic and which tolerance mechanisms exist: Testis vs. epididymis*
Kenneth Tung (University of Virginia, USA)
4:00 – 4:30pm CET
- 2) *What happens during testicular tissue transplantation? Is the immune system reacting?*
Ellen Goossens (Vrije Universiteit Brussel, Belgium)
4:30 – 5:00pm CET
- 3) *Sertoli cell transplantation: An innovative way to study testis immune regulation*
Jannette Dufour (Texas Tech University Health Sciences Center, USA)
5:00 – 5:30pm CET
- 4) *Central immune tolerance and fertility in males and females*
Margaret Petroff (Michigan State University, USA)
5:30 – 6:00pm CET
- 5) *T cells in tumor progression*
Magdalena Huber (Philipps-University Marburg, Germany)
6:00 – 6:30pm CET

Thursday November 30th 8:00 – 10:00am CET

- 1) *Overview about the diversity of clinical manifestations and challenges (not only considering immunology)*
Jens Rosellen (Justus-Liebig-University Giessen, Germany)
8:00 – 8:30am CET
- 2) *What are STIs doing (differently) to escape the immune system?*
Emily Bryan (Queensland University of Technology, Australia)
8:30 – 9:00am CET
- 3) *What is the role of immunoregulatory factors in testis and epididymis?*
Rukmali Wijayarathna (Hudson Institute of Medical Research and Monash University Melbourne, Australia)
9:00 – 9:30am CET
- 4) *Which environmental factors disturb testicular and epididymal physiology?*
Brett Nixon (University of Newcastle, Australia)
9:30 – 10:00am CET

Wrap up / Closing remarks
